

## Information for Family Groups of Three or More

Our rooms will comfortably accommodate two people. Parents traveling with two or more children would need two rooms in some combination of shared bathroom and/or private bath. If your children are small we would make every effort to ensure that your rooms are adjacent. However, especially in the high season, we cannot always promise that.

We have one "family set up" which is a room with a private bath and queen bed that adjoins to a room with two twin beds and shared bath. Those are the only adjoining rooms we have.

If you are traveling with a baby or a child under the age of 12, we do have cribs (no charge) and single futons (\$30) that we can put in the larger rooms with bath. Please be warned that a futon would not leave you with a lot of leg room. It could, however, be folded up during the day.

We also have two rooms below lobby level at the back of the hotel. They share a bathroom down the hall. One room has 2 double beds, accommodating up to 4, while the other has one double and one twin, fitting up to 3. EACH room starts at a rate of \$105 for double occupancy and increases by \$30 for each additional person (\$135 for three people, \$165 for 4 people) and can be booked together or separately.

Please let us know of any questions. It is always nice to have families and children in the hotel.
